- **DUAL BOOM/LINE CONTROL**
- **MULTIPLE TANK CONTROL**
- **COMPATIBLE WITH MOST SPRAY RATE CONTROLLERS**
- **OPTIONAL VARIABLE RATE CONTROL WITH MAPPING**

It's time.

X20 Spray Controller from Topcon Precision Agriculture is the industry leader in precision spraying, featuring the ability to handle up to three tanks, dual line/boom control, and the ability to control up to 30 sections - all simultaneously from a single console.

Real Cost Savings

Supplied as a standard feature, Auto Section Control (ASC) reduces the operator's work load, increases the accuracy of spray application, and reduces chemical costs. The X20 Spray Controller provides real cost savings on inputs while helping to protect the environment. It's a true stand-alone controller - simple to use and versatile enough for almost any needed application.

Versatile

The easy-to-follow visual displays of all functions and inputs can be customized to suit controller performance, making the X20 Spray Controller one of the most versatile products available.

The X20 provides the option of Variable Rate Control (VRC) with Mapping. With this combination, the X20 can simultaneously apply from prescription maps, control and record all products, and generate real-time application maps. The X20 is truly one of the most powerful precision agriculture systems available today.
